

BULLI BUILT

SPECIALISTS IN DUCT MANUFACTURING

A QUALITY FINISH, EVERY TIME

Bulli Built are able to meet the demands of any job - on time, every time. We pride ourselves on producing consistent, excellent quality rectangular and spiral ducts (fittings and straight) at competitive prices.

Bulli Built can supply multiple jobs simultaneously, without disruption to normal customer requirements. We can produce your duct in various gauges of galvanised sheet metal or zincalume steel. The infrastructure and systems we have developed and put in place, enable us to produce a quality finish, backed by certified products.

We specialise in fast turn around of our spiral duct – setting new industry standards for delivery performance. We can produce your spiral duct in various gauges of galvanised sheet metal. Up to 500mm in diameter our spiral duct work is rigid, leak proof, and can be manufactured to lengths of 4 metres. We hold stock for diameters to 300mm for urgent jobs. Bends and other fittings are also available to deliver a total solution.

RIGID, LEAKPROOF & EASILY JOINED DUCT WORK

Our primary goal is to provide our customers with the timely supply of high quality ductwork and associated products, as they are required and at competitive prices.

Bulli Built understand that sometimes the demands of our customers' jobs can change and so we have designed flexibility into our manufacturing processes to manage these situations and ensure we deliver the required products in a timely manner with no delay or disruptions to our customers' schedules.

INTERNAL INSULATION FOR RECTANGULAR DUCTS NOW AVAILABLE

Internal insulation to 50mm as required for rectangular ducts is now available. Bulli Built recommends polyester insulation for the internal insulation of air ducts as an alternative to fibre glass.

Polyester insulation is non-toxic, non-harmful, a low BOC product and does not absorb moisture. This means easier handling with no gloves, masks or boiler units needed.

SPECIALISTS IN DUCT MANUFACTURING

RECTANGULAR DUCT

Bulli Built specialise in fast turn around of rectangular duct - setting new industry standards for delivery performance. Our rectangular duct work is rigid, leak proof and fully certified; using various gauges of galvanised sheet metal and zincalume. Built to your requirements - we can make rectangular duct in continuous lengths of 4 metres. You can let us know whether you want it with or without vanes, baffles or insulation. Internal insulation to 50mm and external stick on insulation as required.

SPIRAL DUCT

With spiral duct work, we can manufacture to 500mm in diameter to lengths of 3 or 4 metres. Using the latest technology in duct manufacturing Bulli Built create rigid and leak proof spiral duct products. All backed with fully traceable and certified products.

GALVANISED OR ZINCALUME DUCT

Bulli built is able to produce fully customised ducts made from galvanised or zincalume products. With lengths of up to 4 metres for rectangular and 4 metres for spiral duct - we use a variety of appropriate metals to suit the application that you have in mind for your job.

HEATING / COOLING ATTACHMENTS

We produce a variety of heating and cooling attachments, including pipe covers, return air boxes, fresh air intakes starting collars, etc. All are fully customisable in size and you may choose the material of your choice from our available range of materials. Foil faced poly insulation is also available where required. Bulli Built also stock a range of consumables from silicone and access panels. General sheetmetal work, usually fittings and boxes for the installation of domestic and light commercial air conditioning systems as well as flashings.

Communication with customers is considered vital to delivering their ductwork smoothly and efficiently, so Bulli Built see it as imperative that all parties involved keep communication lines open and active to achieve successful results. Whether you are conducting a factory fit out that will need extrusion ducts or ventilation ducts that will need sheet metal of great lengths, or if you are simply struggling to find a metal fabricator to support you with your specific needs, Bulli Built has got you covered. Delivery can be arranged. We have short lead times and meet urgent requests. For information on our pricing refer to our [Product Catalogue](#).
